

First Aid Policy

Introduction

Policy Statement

Tavistock Infant School will undertake to ensure compliance with the relevant legislation with regard to the provision of first aid for all employees and to ensure best practice by extending the arrangements as far as is reasonably practicable to children and others who may also be affected by our activities. Responsibility for first aid at Tavistock Infant School is held by the Headteacher who is the responsible manager. All first aid provision is arranged and managed in accordance with the Children's Services Safety Guidance Procedure SGP 08-07(First Aid).

All staff have a statutory obligation to follow and co-operate with the requirements of this policy.

Aims & Objectives

Our first aid policy requirements will be achieved by:

- Carrying out a First Aid Needs Assessment to determine the first aid provision requirements for our premises.
 - It is our policy to ensure that the First Aid Needs Assessment will be reviewed periodically or following any significant changes that may affect first aid provision.
 - The Children's Services First Aid Needs Assessment Form (CSAF-002) will be used to produce the First Aid Needs Assessment for our site.
- Ensuring that there are a sufficient number of trained first aid staff on duty and available for the numbers and risks on the premises in accordance with the First Aid Needs Assessment.
- Ensuring that there are suitable and sufficient facilities and equipment available to administer first aid in accordance with the First Aid Needs Assessment.
- Ensuring the above provisions are clear and shared with all who may require them.

First Aid-Training

The responsible manager will ensure that appropriate numbers of appointed persons, school first aid trained staff, emergency first aiders, qualified first aiders and paediatric first aid trained staff are nominated, as identified by completion of the First Aid Needs Assessment, and that they are adequately trained to meet their statutory duties.

Appointed Persons

At Tavistock the appointed persons are as follows:

- Mrs O'Connor and Mrs Foster teaching staff
- Mrs Scoggins and Miss Faux support staff
- Office staff are likely to be people who call emergency services.

Where the first aid needs assessment identifies that qualified first aid staff are not necessary due to the nature/level of risk, the minimum legal requirement is to appoint a person (the Appointed Person) to be on site at all times during the working day. Appointed persons are in place to take charge of first aid arrangements including looking after equipment and calling emergency services.

Note: Appointed Persons are not First Aiders and should not provide first aid for which they have not been trained. However, it is good practice to provide appointed persons with some level of first aid training. Such training does not require HSE approval.

School First Aid Trained Staff

At Tavistock there are 16 school first aid trained staff in total who are listed on the Medical Room door.

This optional, bespoke training for school staff is available to assist the school in meeting its own duty of care towards its pupils. It is not a substitute for HSE-approved first aid training which qualifies staff to provide first aid to other adults. This training should be provided only where:

- Additional training is considered to be required for appointed persons in order to enhance their role to provide first aid to children; **and/or**
- Other staff, in addition to Emergency/Qualified First Aiders, are also considered to require some level of training in order to provide first aid to children.

Paediatric First Aid Trained Staff

At Tavistock there are 4 paediatric first aid trained staff who are as follows:

- Mrs O'Connor
- Mrs Foster
- Mrs Scoggins
- Miss Faux

These staff are in place to meet the Early Years Foundation Stage (EYFS) statutory obligations for provision of first aid to those children aged 5 years old or younger.

First Aid Provision

Our First Aid Needs Assessment has identified the following first aid kit requirements:

First aid kits on the premises

- The First Aid trolley is situated in the Medical Room and 3 first aid kits prepared for travel.
- Small kits are in each of the 9 classrooms and one is in the library/ICT Suite and Dormouse Nest.
- The First Aid trolley is used at playtimes and lunchtimes and kept in the medical room at any other time.

Mrs Scoggins (appointed person)

- Provides checklists/orders medical supplies .
- Checks and restocks all the travel kits after a school trip.
- Checks and restocks the Library/ICT kit.
- Monitors and files the First Aid Kit checklists.

LSAs

- Check the class First Aid kit at the start of every half term, sign the checklist and replenish as necessary.

The Headteacher completes the Children's Services First Aid Kit Checklist (CSAF-003). Completed checklists are to be stored in the First Aid File in the H&S roller cupboard outside HH class.

Emergency Arrangements

Upon being summoned in the event of an accident, the first aider/appointed person is to take charge of the first aid administration/emergency treatment commensurate with their training. Following their assessment of the injured person, they are to administer appropriate first aid and make a balanced judgement as to whether there is a requirement to call an ambulance.

The first aider/appointed person is to always call an ambulance on the following occasions:

- In the event of a serious injury
- In the event of any significant head injury
- In the event of a period of unconsciousness
- Whenever there is the possibility of a fracture or where this is suspected
- Whenever the first aider is unsure of the severity of the injuries
- Whenever the first aider is unsure of the correct treatment

In the event of an accident involving a child, where appropriate, it is our policy to always notify parents of their child's accident if it:

- is considered to be a serious (or more than minor) injury.
- requires first aid treatment.

- requires attendance at hospital.

Our procedure for notifying parents will be to use all telephone numbers available to contact them and leave a message should the parents not be contactable.

In the event that parents/emergency contacts cannot be contacted and a message has been left, our policy will be to continue to attempt to make contact with the parents every 10/15 minutes. In the interim, we will ensure that the qualified first aider, appointed person or another member of staff remains with the child until the parents can be contacted and arrive (as required).

In the event that the child requires hospital treatment and the parents cannot be contacted prior to attendance, the qualified first aider/appointed person/another member of staff will accompany the child to hospital and remain with them until the parents can be contacted and arrive at the hospital.

Out of hour and trips

The first-aid arrangements for all school managed and organised after school activities (parent's evenings, school fetes, and sports activities) are considered in this policy. On occasions where there may be the need for additional provision the school will carry out a needs assessment for that activity.

Where the school have arrangements to let/hire out buildings to external organisations there need to be arrangements in place to co-ordinate the first-aid arrangements with the hirer. This is managed by the Headteacher /Senior Administrative Officer who will ensure that these arrangements are recorded in the lettings/hire agreement.

The first-aid arrangements for school organised trips/visit are included in the Trip Risk Assessments. These are reviewed for each trip/visit and the level of first-aid provision is reviewed to ensure adequate cover is provided for the trip/visit, and that sufficient cover is retained at the school to cover those who stay at school.

Records

All accidents requiring first aid treatment are to be recorded with (at least) the following information:

- Name of injured person
- Name of the qualified/emergency/school/paediatric first aider or appointed person
- Date of the accident
- Type of accident (e.g. bump on head etc.)
- Treatment provided and action taken
